

ELECTRIC ELEMENT HEATER SET

High efficiency heating systems, pre-tested, easily installed and ready to use

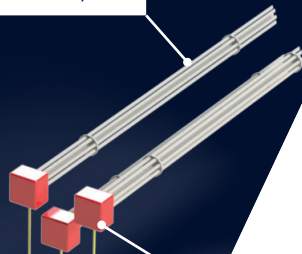

Metal Elements

Control Panel

Programmable temperature controller for preset heating control and monitoring. Features individual element indicator lights, on/off switch, time switch.

Metal Elements

High efficiency metal rod element assemblies, ideal for use in mobile tanks due to their robust design. (2" & 4" sizes)

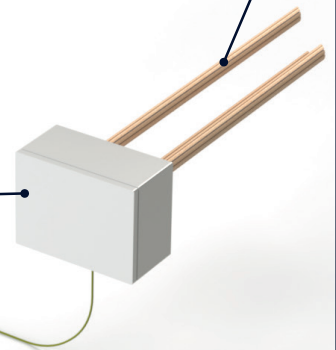

Terminal Box

IP65 boxes, fitted with individual element monitoring for overtemperature cut-off. (ATEX option available)

Ceramic Elements

Ceramic Elements

High Efficiency 2" ceramic rod elements, cost effective for fixed storage applications.

FEATURES

Ideally suited for applications where product temperature control is important and a gradual heat up required

Fitted with over temperature protection to prevent damage to the elements or products

Robust and durable for transport tank applications where frequent handling is required

EXAMPLE PACKAGES

Type	No. of Heaters	Size	Rating	Total Rating
Ceramic for 40ft Storage Tank	8	2"	7 kW	56 kW
Metal Rod for 20ft Transport Tank	4	4"	20 kW	80 kW
